

Eidon Identity Mesh

Buyer Proof Summary

Public-safe product proof pack generated from uploaded Cybstyx Phylaxis master guide and package inspection data. This is source-based buyer collateral, not a live-customer runtime certification.

Identity mesh, local IAM, SSO-ready federation, SCIM/LDAP/OIDC/SAML connector governance, and role claims.

Category	Native Identity Mesh / Access Governance
Responsibility	Govern identities, groups, roles, MFA, sessions, access reviews, service accounts, and federation connectors.
Standalone boundary	If Eidon is offline, standalone products use local admin auth and cached identity only if policy allows.
Authentication	Primary product for local identity, MFA, SSO federation, and service identity tokens.
Linked applications	Optional identity backbone for SecOwl and all Phylaxis products, plus Nomion, Tekmerion evidence, and Kleidion secrets.

Source Evidence Snapshot

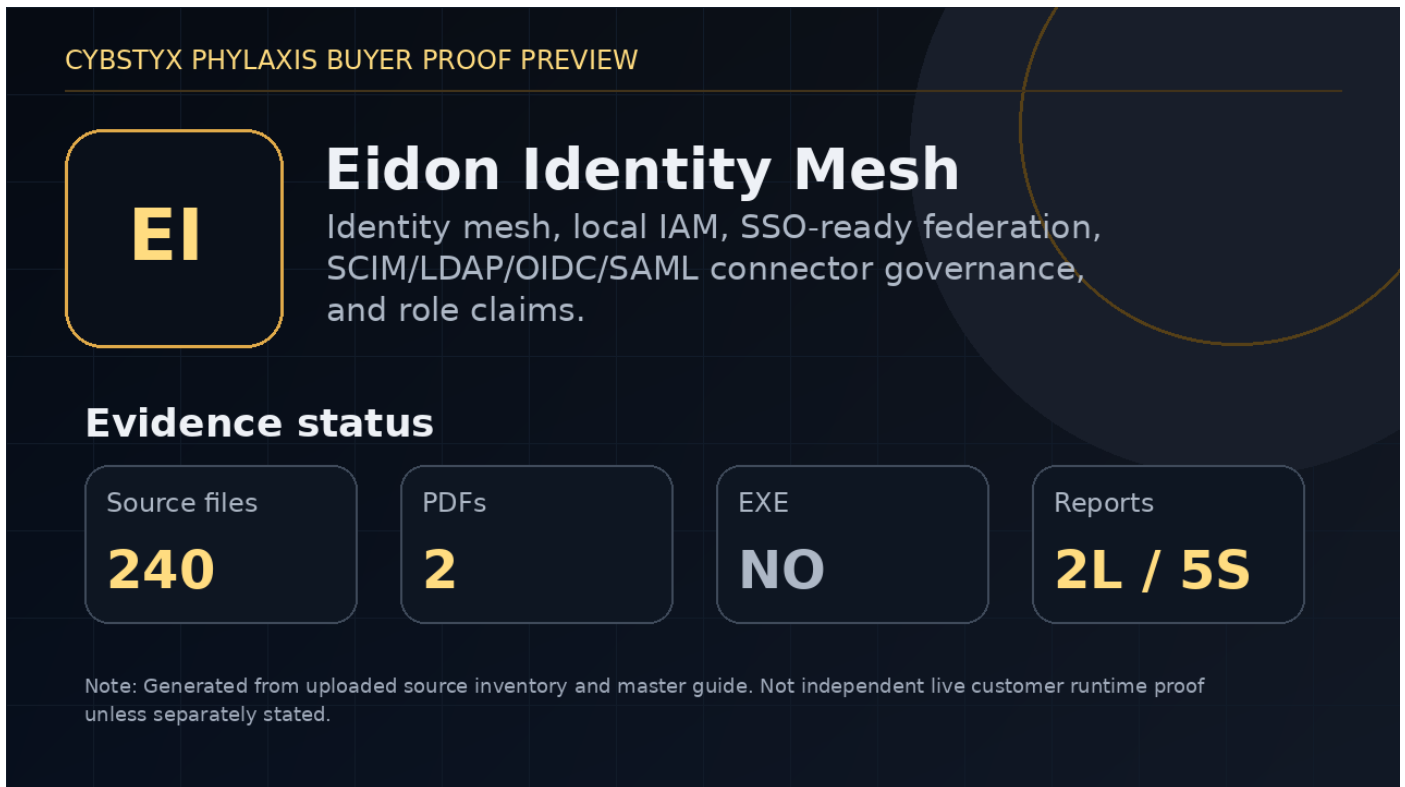

Source files inspected	240
PDF documents in package	2
Executable evidence found	NO / not found in root scan
Live/self-test reports referenced	2 live / 5 self-test
Language profile	Python, JavaScript, Go, Java, PowerShell
Database/configuration modes	sqlite-native-production, postgresql-schema-ready

Core modules

<ul style="list-style-type: none">• Identity directory• Groups, roles, and access requests• MFA and session control• Access reviews and break-glass• Service tokens, connector hub, and audit evidence

Visual Proof Preview

The image below is a generated buyer proof preview based on the uploaded source inventory and master guide. Use the separate contact sheet and MP4 preview for visual sales review.

Recommended buyer usage: share this pack as a source-backed capability and readiness brief. For production procurement, pair it with a live demo, customer environment scope, licence term, deployment checklist, and signed acceptance test.
