

Nyxara DarkWatch

Buyer Proof Summary

Public-safe product proof pack generated from uploaded Cybstyx Phylaxis master guide and package inspection data. This is source-based buyer collateral, not a live-customer runtime certification.

Dark web, brand, leak, and exposure monitoring with external intelligence watch and controlled internet features.

Category	Dark Exposure Prevention
Responsibility	Watch approved domains, brands, exposure indicators, leaked credential signals, feeds, and cases for security review.
Standalone boundary	Internet access is limited to approved feed hosts and disabled by default unless the client enables a specific feature.
Authentication	Local RBAC with MFA; optional Eidon SSO; signed feed or collector authentication.
Linked applications	Optional SecOwl adapter, Chronyx timeline, Tekmerion evidence, Keraunix response, Orama web shield, Nomion, and Eidon.

Source Evidence Snapshot

Source files inspected	161
PDF documents in package	10
Executable evidence found	NO / not found in root scan
Live/self-test reports referenced	2 live / 4 self-test
Language profile	Python, JavaScript, Java, PowerShell, Shell
Database/configuration modes	sqlite-local-standalone-small-site, postgresql-schema-ready-enterprise-recommended

Core modules

- Exposure watchlists
- Domain and brand monitoring
- Leaked credential indicators
- Feed import and risk queue
- Reports, evidence export, and controlled internet connector list

Visual Proof Preview

The image below is a generated buyer proof preview based on the uploaded source inventory and master guide. Use the separate contact sheet and MP4 preview for visual sales review.

Recommended buyer usage: share this pack as a source-backed capability and readiness brief. For production procurement, pair it with a live demo, customer environment scope, licence term, deployment checklist, and signed acceptance test.
