

# Phragma Data Guard

## Buyer Proof Summary

Public-safe product proof pack generated from uploaded Cybstyx Phylaxis master guide and package inspection data. This is source-based buyer collateral, not a live-customer runtime certification.

DLP, sensitive data classification, export approval, and data movement guardrails.

Category	DLP / Data Protection
Responsibility	Classify sensitive data, review movement, control exports, and keep evidence for data protection decisions.
Standalone boundary	Data guard policy works locally; SecOwl is only central visibility and command.
Authentication	Local RBAC with MFA; optional Eidon SSO; scanner or agent service authentication.
Linked applications	Optional SecOwl adapter, Eidon identity, Nomion, Tekmerion evidence, Chronyx timeline, Keraunix response, and Kleidion secrets.

### Source Evidence Snapshot

Source files inspected	341
PDF documents in package	11
Executable evidence found	NO / not found in root scan
Live/self-test reports referenced	2 live / 5 self-test
Language profile	Python, JavaScript, Java, PowerShell, Shell
Database/configuration modes	sqlite-production-default, postgresql-schema-present-not-active-in-stdlib-runtime, first-run-local-initialization

### Core modules

<ul style="list-style-type: none"><li>• Data classification</li><li>• Policy rules and incidents</li><li>• Sensitive data events</li><li>• Export approvals</li><li>• File/content monitoring, evidence, and reports</li></ul>

## Visual Proof Preview

The image below is a generated buyer proof preview based on the uploaded source inventory and master guide. Use the separate contact sheet and MP4 preview for visual sales review.

Recommended buyer usage: share this pack as a source-backed capability and readiness brief. For production procurement, pair it with a live demo, customer environment scope, licence term, deployment checklist, and signed acceptance test.
