

Phylax Endpoint Guard Buyer Proof Summary

Public-safe product proof pack generated from uploaded Cybstyx Phylaxis master guide and package inspection data. This is source-based buyer collateral, not a live-customer runtime certification.

Endpoint protection, posture, device trust, and quarantine workflow for laptops, servers, and endpoint agents.

Category	Standalone Endpoint Security / Native EDR Command System
Responsibility	Protect endpoints, validate device posture, track agent heartbeat, and govern quarantine or allow decisions.
Standalone boundary	Endpoint protection continues locally even if SecOwl, Eidon, or Nomion is offline after valid local policy and licence cache.
Authentication	Local RBAC with admin MFA; optional Eidon SSO; agent/service authentication for endpoint telemetry.
Linked applications	Optional SecOwl adapter, Eidon identity, Nomion licence, Chronyx timeline, Tekmerion evidence, Keraunix response, Topora resources, and Kleidion secrets.

Source Evidence Snapshot

Source files inspected	422
PDF documents in package	13
Executable evidence found	NO / not found in root scan
Live/self-test reports referenced	2 live / 5 self-test
Language profile	Python, JavaScript, Go, Java, PowerShell
Database/configuration modes	sqlite-production-runtime, postgresql-runtime-ready-with-schema-and-env-switch

Core modules

<ul style="list-style-type: none">• Endpoint agent and device inventory• Posture heartbeat and trust checks• Malware or behavior review• Policy gate and quarantine approvals• USB, clipboard, network controls and endpoint evidence
