

Topora Resource Mapper Buyer Proof Summary

Public-safe product proof pack generated from uploaded Cybstyx Phylaxis master guide and package inspection data. This is source-based buyer collateral, not a live-customer runtime certification.

Resource discovery, topology mapping, asset relationships, sensitivity classification, and connector planning.

Category	Customer Resource Intelligence and Topology Mapping
Responsibility	Map approved assets, dependencies, ownership, risk, and protection priority before connectors or access rules are deployed.
Standalone boundary	Topora must never scan beyond approved client scope; SecOwl receives only approved map exports.
Authentication	Local RBAC with MFA; optional Eidon SSO; scanner or collector service authentication.
Linked applications	Optional SecOwl adapter, Pteron route planning, Phylax device context, Chronyx asset context, Dolion decoy placement, Tekmerion evidence, Eidon, and Nomion.

Source Evidence Snapshot

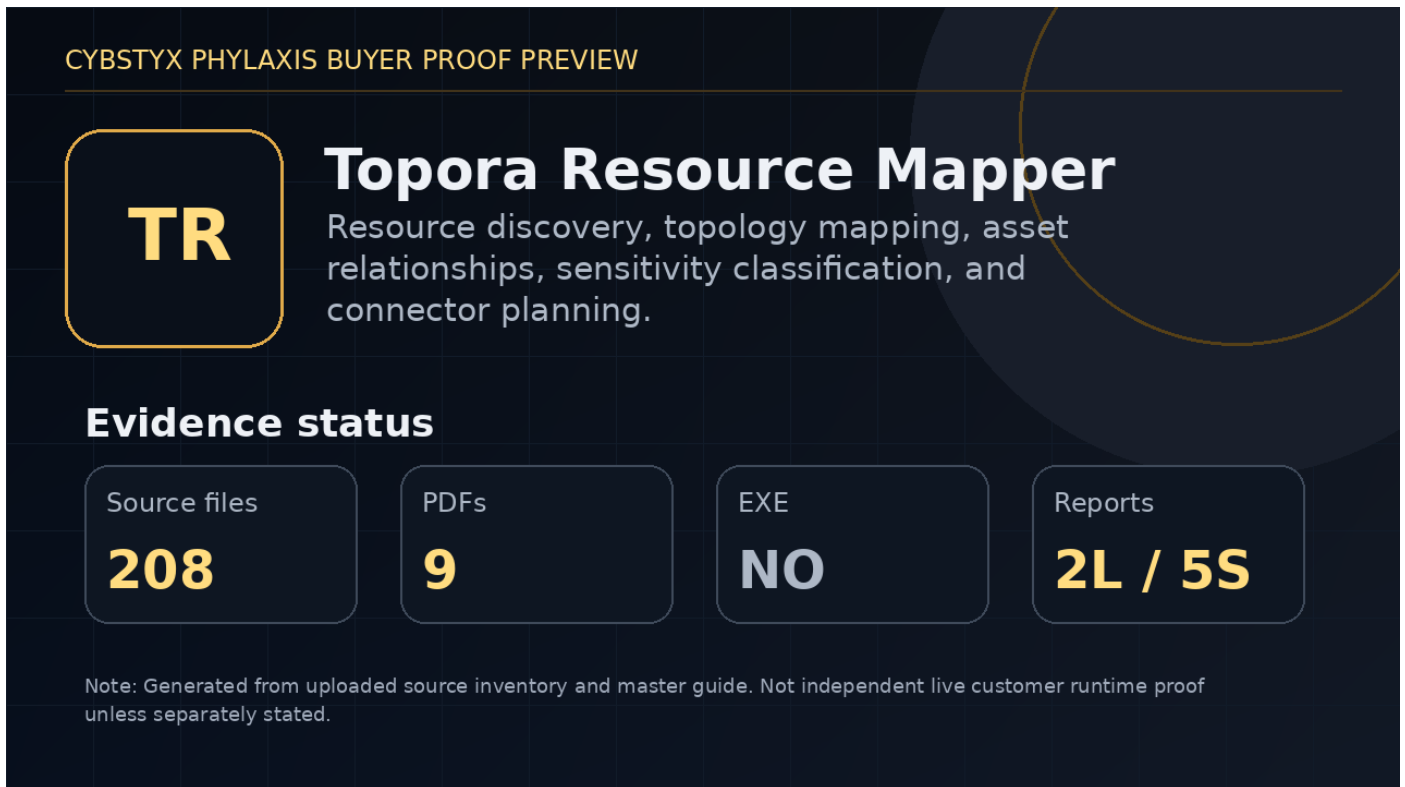

Source files inspected	208
PDF documents in package	9
Executable evidence found	NO / not found in root scan
Live/self-test reports referenced	2 live / 5 self-test
Language profile	Python, JavaScript, Java, PowerShell, Shell
Database/configuration modes	sqlite-production, postgresql-runtime-optional

Core modules

<ul style="list-style-type: none">• Resource catalogue• Native scanner and endpoint collector• Relationship map• Risk register and sensitivity labels• Connector planner, compliance map, deployment readiness, and evidence ledger

Visual Proof Preview

The image below is a generated buyer proof preview based on the uploaded source inventory and master guide. Use the separate contact sheet and MP4 preview for visual sales review.

Recommended buyer usage: share this pack as a source-backed capability and readiness brief. For production procurement, pair it with a live demo, customer environment scope, licence term, deployment checklist, and signed acceptance test.
